CURRENT SCENARIO

- To become successful apart from Functional Knowledge one requires Soft Skills, Etiquettes, Grooming & Strong values
- College education provides only Functional Knowledge, not Soft Skills (MIND SET CHALLENGES AND VISIONS)
- Many capable students do not come in lime light as they lack the finesse
- In today's competitive world creating the right impression, managing self & others & operating on strong positive values are as important as knowing the job and delivering results.

- Changing attitudes & developing skills cannot be done in few days
- Attitudes do not change overnight or skills cannot be developed overnight, it requires sustained effort
- Also many parents /teachers are neither aware of such concept nor know how to guide children in acquiring right attitudes & skills to develop a powerful personality.

THE SOLUTION

- **Keeping the Current Scenario/Problems in mind, 'SAV DIPLOMA' has been designed**
- **Designed to *Enhance Excellence in Performance***
- **Students need to be groomed & coached systematically over a period of time, so that they inculcate the right attitudes, skills & values**
